WEATHER REPORT

Four Corners Flooding: San Juan River Crest Arrives Tonight in Southeast Utah · Southeast King-Tide Coastal Flooding · New Mexico Storms · Tropical Storm Vance

Sunday evening, October 25, 2026 · Issued 6:15 PM CT

FOUR CORNERS RIVER FLOODING

NWS Grand Junction still calls the **San Juan River from Four Corners to Mexican Hat, Utah** "**catastrophic flooding**" and "**an emergency situation**." The crest moves through **Aneth, Montezuma Creek and Bluff this evening** and is forecast to reach **29.5 ft early Monday** at the gauge near Bluff (by Mexican Hat), above the 23-ft flood stage. That is **below the 32.0-ft record from 1927**; this morning's forecast was 43.6 ft. Flooding runs to Lake Powell through Tuesday morning. NWS has 15 Flood Warnings out.

haildatahub.com · Full report · NWS / SPC / WPC / NOAA NHC

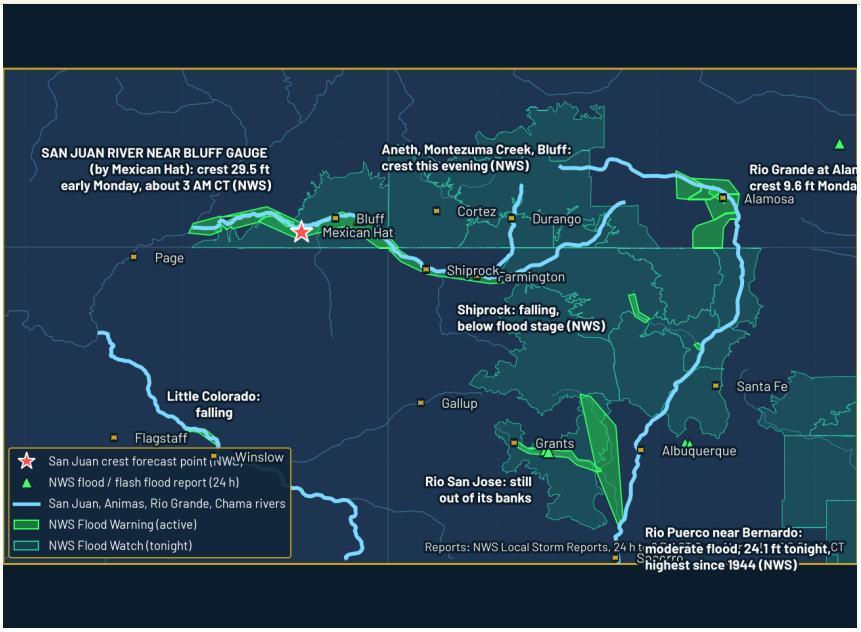

Also tonight: the **Coastal Flood Warning** for Palm Beach, Broward and Miami-Dade starts at **1 AM CT Monday**, with major flood stage possible at high tide Monday and Tuesday; warnings cover Florida's Atlantic coast from Nassau County to the Upper Keys. SPC keeps a **Marginal Risk** for storms in New Mexico and West Texas, with a Flash Flood Warning near Clovis. **Vance** weakened to a 70 mph tropical storm, and **Tropical Storm Olana** formed in the Central Pacific. Plus a winter check and the Top Weather Stories.

haildatahub.com · Sources: NWS alerts and storm reports 5:56 PM CT · NWS Grand Junction 3:07 PM CT · SPC 2:55 PM CT · WPC 2:59 PM CT · NHC 4 PM CT · JTWC 010

1 · Four Corners river flooding: San Juan crest arrives tonight (lead)

River / area	Official (NWS flood warnings, statements, river forecasts and storm reports; times CT)
San Juan River, Four Corners to Mexican Hat, UT	**NWS Grand Junction (3:07 PM CT):** "Catastrophic flooding ... is expected along the San Juan River between Four Corners and Mexican Hat. **This is an emergency situation!**" The crest passes Aneth, Montezuma Creek and Bluff this afternoon and evening. At the **San Juan River near Bluff gauge** (USGS 09379500, beside Mexican Hat) the river was 20 ft at 3:04 PM CT; it rises above flood stage (23 ft) to a **crest of 29.5 ft early Monday** and drops below flood stage early Tuesday. Record: **32.0 ft on Sept. 10, 1927**. No more rain is expected. Warning until 7 AM CT Tuesday. Places: Mexican Hat, Tselakai Dezza, Bluff, Halchita, Montezuma Creek and Aneth
River forecast (NWS)	Gauge near Bluff: 18.3 ft at 4:30 PM CT; forecast about 24.7 ft by 7 PM CT, **peak 29.5 ft about 3 AM CT Monday** (moderate flood stage is 27 ft, major 32 ft), 26.9 ft by 1 PM CT Monday. Upstream at Four Corners the river crested at 20.98 ft about 6:30 AM CT today and was 17.6 ft at 5 PM CT, falling
Bluff to Lake Powell, UT	NWS Salt Lake City (2:21 PM CT): moderate flooding; the river crests later this evening into tonight at Bluff, above moderate flood stage; flooding continues to Lake Powell through at least Tuesday morning. NWS storm report: flooding on Highway 162 at Montezuma Creek (11:15 AM CT)
Shiprock and Farmington, NM	NWS Albuquerque (12:22 to 12:31 PM CT): minor flooding, both forecast to fall below flood stage this afternoon (Shiprock 15.5 ft, Farmington 8.5 ft) and keep falling
Other New Mexico rivers	**Rio Puerco near Bernardo:** raised to **moderate flooding**; 17.6 ft at 3 PM CT, crest **24.1 ft just after midnight**, a second rise to 22.5 ft Wednesday; streets in San Francisco village flood at 23 ft; "Water levels in the Lower Rio Puerco have not been this high since July of 1944." **Rio San Jose:** still out of its banks in large stretches from Grants to Laguna Pueblo, warning to 4:30 PM CT Monday. **Rio Chama** above Abiquiu peaked at 12.1 ft (2009 crest 10.8 ft), now falling; below Chamita crest 7.4 ft after midnight (NWS Albuquerque)
Colorado and Arizona	Rio Grande crested at Del Norte and Monte Vista; low-lying flooding continues. Rio Grande at Alamosa: 8.3 ft at 3:30 PM CT, **crest 9.6 ft Monday morning** (flood stage 9.0 ft; 1948 crest 9.9 ft). Conejos River at Mogote crested (NWS Pueblo). Little Colorado River at Winslow, AZ: falling, below action stage; flooding near Birdsprings until 10 AM CT Monday (NWS Flagstaff)

Map: HailDataHub from NWS Local Storm Reports (24 h to 6 PM CT Sun), active NWS alerts (api.weather.gov, 5:56 PM CT) and Natural Earth rivers.

Timeline

- **Fri:** San Juan River at Farmington crests at an all-time record
- **Sat:** Shiprock reaches its highest stage on record; at 9:35 PM CT NWS forecasts about 36 ft at Mexican Hat by Sunday evening
- **Sun 6:30 AM CT:** crest at Four Corners (20.98 ft); **11:07 AM CT:** NWS forecast crest 43.6 ft early Monday near Bluff; **2:52 PM CT:** forecast cut to 29.5 ft
- **Sun evening:** crest at Aneth, Montezuma Creek and Bluff; **Mon about 3 AM CT:** 29.5-ft peak at the gauge near Bluff; **Tue early:** back below flood stage, warnings end 7 AM CT

Who's in the path

- **San Juan River, Utah:** Aneth, Montezuma Creek, Bluff, Halchita, Tselakai Dezza and Mexican Hat, down to Lake Powell
- **New Mexico:** San Francisco village near Bernardo (Rio Puerco), the Rio San Jose valley from Grants to Laguna, and the Rio Chama below Chamita. NWS Flood Watches for north and west-central New Mexico until 1 AM CT and eastern New Mexico until 7 AM CT Monday; southwest Colorado and southeast Utah until 1 AM CT

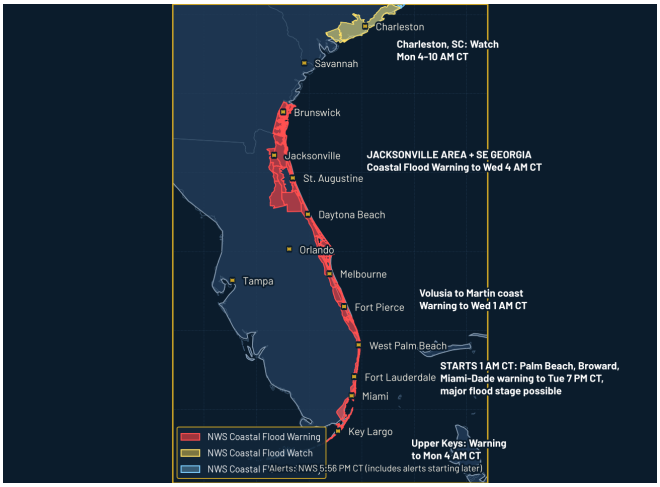

Impacts: flooded homes and low-lying property, low-water crossings and roads under water, fast rivers, debris and bank erosion. **What changed since this morning (8:25 AM CT pack, 8:04 AM CT alerts):** the forecast record crest at Mexican Hat (about 36 ft by 6 PM CT) did not happen; NWS raised it to 43.6 ft at 11:07 AM CT, then cut it to 29.5 ft early Monday, below the 1927 record. Shiprock and Farmington are now minor and falling. The Rio Puerco forecast rose from minor to moderate, its highest since 1944. Flood Warnings went from 19 to 15; Flash Flood Warnings from 0 to 1; Flood Watches from 2 to 3.

2 · Southeast king-tide coastal flooding into midweek

Area	Official (NWS; times CT)
Palm Beach to Miami-Dade	**Coastal Flood Warning from 1 AM CT Monday to 7 PM CT Tuesday**: moderate flooding around high tide, **reaching major flood stage Monday and Tuesday**; low-lying homes, businesses and some critical infrastructure inundated. Coastal Flood Advisory until then; more advisories after the King Tide peak (NWS Miami). WPC: **Slight Risk of flash flooding** in Southeast Florida through tonight, Marginal Monday and Tuesday
Jacksonville area and SE Georgia	**Coastal Flood Warning** for coastal Nassau, Duval, Flagler and St. Johns plus inland Clay, Putnam, St. Johns, Flagler and Duval areas **until 4 AM CT Wednesday**; Glynn and Camden, GA until 10 AM CT Tuesday (NWS Jacksonville). Wind Advisory until 7 PM CT; gusts to 45 mph at Jacksonville Beach this afternoon (NWS storm reports)
Space and Treasure coasts	**Coastal Flood Warning** for Volusia, Brevard, Indian River, St. Lucie and Martin **until 1 AM CT Wednesday**, significant coastal flooding; High Surf Advisory, 7 to 12 ft breakers; Wind Advisory until 7 AM CT Monday. St. Johns River near Astor in moderate flood, still rising slowly (NWS Melbourne)
Florida Keys	**Coastal Flood Warning** for the Upper Keys until 4 AM CT Monday, major saltwater flooding; advisory for the Middle and Lower Keys (NWS Key West)
Carolinas and California	Charleston, SC: Coastal Flood Advisory 4 to 9 PM CT tonight and a **Coastal Flood Watch 4 to 10 AM CT Monday**; the Charleston Harbor gauge reached 7.82 ft MLLW at 7:18 AM CT (NWS Charleston). North Carolina: Coastal Flood Advisories for the Outer Banks, Ocracoke, Carteret, Onslow and the Pamlico sounds until 1 PM CT Thursday; NWS storm reports of homes surrounded by water near Washington, NC and flooded roads at Fairfield Harbour (NWS Newport/Morehead City). San Diego and Orange County coasts: Coastal Flood Warning until 3 PM CT Thursday, tides 1 to 1.7 ft above predictions (NWS San Diego). Nationwide: 8 Coastal Flood Warnings, 22 Advisories (5:56 PM CT)

Map: HailDataHub from active NWS coastal flood alerts (5:56 PM CT), including alerts that start later.

What changed since this morning: NWS Miami now says major flood stage is possible Monday and Tuesday; NWS Melbourne reissued its warning with 7 to 12 ft breakers; Charleston's warning ended and a watch is up for Monday morning's tide; new North Carolina advisories run through Thursday. Coastal Flood Warnings 9 to 8, Watches 4 to 1.

3 · Tonight: New Mexico and West Texas storms

Item	Official (times CT)
Outlook	SPC Day 1 (2:55 PM CT): **Marginal Risk** (level 1 of 5) through tonight from New Mexico into far West Texas and the western Texas Panhandle. **Isolated large hail, damaging gusts and a tornado or two** possible; most fuel for storms in southeast New Mexico and West Texas
Flash flooding	**NWS Flash Flood Warning** for northwest Curry and south-central Quay counties, NM until 8:45 PM CT; radar showed 2 to 2.5 in. of rain had fallen near Forrest (NWS Albuquerque, 5:40 PM CT). Flood Advisories near Albuquerque and in Sandoval County. WPC: Slight Risk of flash flooding over the southern High Plains through tonight, easing to Marginal Monday morning; 2 to 4+ in. possible locally near the northern Texas Panhandle
Warnings this evening	NWS Albuquerque: **Severe Thunderstorm Warning** for western Lincoln and southeastern Socorro counties, NM, 6:11 to 6:45 PM CT, radar-indicated **60 mph gusts and quarter-size hail** in mainly rural areas. NWS El Paso: Severe Thunderstorm Warning for Otero County, NM, 5:40 to 6:15 PM CT. SPC had no hail, wind or tornado reports for today as of 6:10 PM CT
Hail	Biggest NWS hail reports, last 24 h: **1.00 in.** 1 SW Santa Fe, NM (8:05 PM CT Sat, dime to quarter size); 1.00 in. at White Sands Missile Range headquarters (6:10 PM CT Sat) and 5 NE Smokey Bear Historical Park, NM (6:57 PM CT Sat)

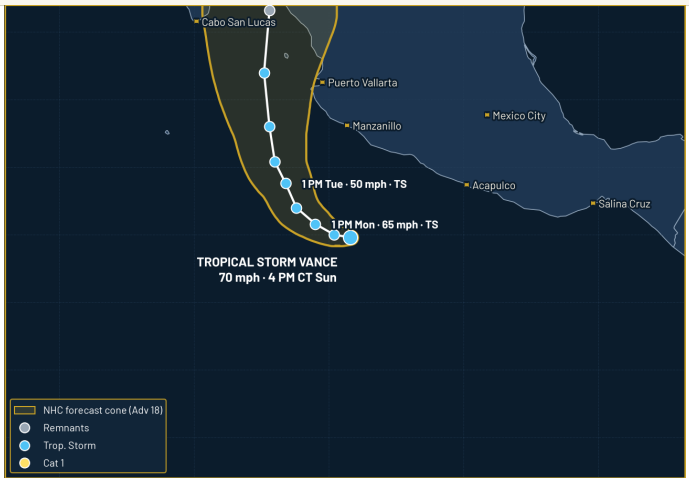

Map: HailDataHub from the SPC Day 1 outlook (2:55 PM CT), NWS Flood Watches and warnings (5:56 PM CT) and NWS storm reports (24 h).

4 · Tropics: Vance weakens; Olana forms

System	Official
Tropical Storm Vance (E. Pacific)	**NHC Advisory 18 (4 PM CT): 70 mph**, 994 mb, about 315 mi WSW of Acapulco, 285 mi S of Manzanillo, moving NNW at 7 mph. **No coastal watches or warnings.** Wind shear and dry air are weakening Vance: about 65 mph Monday, 50 mph by Tuesday afternoon, post-tropical by Thursday. NHC shifted the track west again and says the threat to Mexico is trending down. Rain: **2 to 4 in., isolated 7 in.**, over Colima, Nayarit, Sinaloa and western Michoacán, Jalisco and Durango through Thursday; flooding and mudslides possible. Life-threatening surf and rip currents. Next advisory 10 PM CT
Tropical Storm Olana (C. Pacific)	**New today.** Tropical Depression Three-C formed this morning and became **Tropical Storm Olana** by 4 PM CT (Advisory 2): **40 mph**, 1002 mb, 580 mi WSW of Johnston Island, moving ENE at 8 mph. Slight strengthening possible today, weakening from Monday; remnant low by Wednesday. No watches; Johnston Atoll should monitor (NHC for CPHC)
Typhoon In-fa (W. Pacific)	**JTWC Warning 010 (4 PM CT):** about **90 mph** (80 kt), 364 nm NW of Kwajalein, moving NW at 9 mph. Forecast about 120 mph within 24 hours and about **145 mph (125 kt) by Thursday**
Champi and Atlantic	Champi: **wrap-up**. JTWC issued its final warning at 4 PM CT; the storm is extratropical, 40 mph, 163 nm SW of Sasebo, Japan. Atlantic: no tropical cyclone formation expected during the next 7 days (NHC, 1 PM CT)

Map: HailDataHub from the NHC Advisory 18 forecast cone for Vance (4 PM CT).

What changed since this morning: Vance went from an 85 mph Category 1 hurricane (Adv 16) to a 70 mph tropical storm (Adv 18), and its rain area now includes Nayarit, Sinaloa and Durango. The Central Pacific low (70%) became Tropical Storm Olana. In-fa strengthened from about 70 mph to a 90 mph typhoon, now forecast near 145 mph (was about 130 mph). Champi is done.

5 · Winter check

- **Alaska:** 2 Winter Storm Warnings for the Upper Koyukuk Valley and south slopes of the central Brooks Range, and 6 Winter Weather Advisories, including the Fairbanks area, until 1 AM CT Tuesday (NWS Fairbanks, Anchorage)
- **Northern Rockies and Plains:** WPC says rain may change to wet snow in the higher Rockies tonight and over western South Dakota into central North Dakota Monday, with high-elevation snow in the northern Rockies Monday night into Tuesday. NWS Riverton has a High Wind Watch for central Wyoming Tuesday
- **Illinois and the Midwest:** no winter alerts tonight (NWS, 5:56 PM CT); WPC expects highs in the 70s to low 80s from the central and southern Plains into the Midwest and Ohio Valley the next couple of days, with 1 to locally 2 in. of rain reaching the upper Midwest by Monday evening

6 · Top Weather Stories (verified)

1) San Juan River crest arrives in southeast Utah: NWS forecasts 29.5 ft early Monday near Bluff, below the 1927 record of 32.0 ft, and still calls it "an emergency situation" (NWS Grand Junction).

2) King-tide coastal flooding: the Miami-Dade, Broward and Palm Beach warning starts at 1 AM CT, with major flood stage possible Monday and Tuesday; warnings from Nassau County to the Upper Keys, advisories in North Carolina to Thursday (NWS).

3) New Mexico rivers: the Rio Puerco near Bernardo is forecast to reach its highest level since 1944 tonight, and a Flash Flood Warning is up near Clovis (NWS Albuquerque).

4) Pacific tropics: Vance weakens to a 70 mph tropical storm off Mexico; Tropical Storm Olana forms in the Central Pacific; Typhoon In-fa is forecast to reach about 145 mph (NHC, JTWC).

5) Storm Boelo in the UK: Met Office amber wind warnings for Scotland, parts of Northern Ireland and far northern England ran through Sunday, with gusts of 60 to 70 mph and up to 80 mph on exposed coasts; another wind warning is out for northern parts of the UK Tuesday (Met Office).

7 · What customers should do

- **Along the San Juan River (Aneth, Montezuma Creek, Bluff, Mexican Hat):** follow evacuation instructions, stay off riverbanks and low-water crossings tonight, and never drive into floodwater or around barricades
- **New Mexico and West Texas tonight:** keep vehicles in a garage or covered lot; avoid arroyos, burn scars and low crossings when storms are nearby
- **Florida and Southeast coast:** before the Monday and Tuesday high tides, move cars to higher ground; avoid driving through saltwater, which damages brakes and electronics
- **After hail, wind or flood damage:** photograph roofs, siding, windows and vehicles from several angles before cleanup, note the date and time, keep receipts, make only temporary repairs, then call your insurer
